

As a cross-industry Information Technology consultancy, Talentschmiede promotes the employment of graduates and young professionals. We offer our customers project teams with young, talented and highly motivated employees, who we continuously support with our innovative training and mentoring concept.

Junior Mainframe System Specialist Banking IT (m/f)

For strengthening our team based in Frankfurt (Main), we are currently looking for several enthusiastic graduates (m/f) who intend to work as a Junior Mainframe System Specialist:

Your tasks:

- For your application management tasks we will certify you with an intensive training schedule, especially in the fields of IBM Mainframes based on z/OS.
- You will learn Application Management processes according to ITIL standards and pass the ITIL Foundation Certification.
- After a successful completion of your training you will provide support to users as an 2nd Level Systems Operation Specialist at the interface to the 3rd Level Application Management.
- In addition, you will be available for professional and technical questions.
- You will acquire knowledge for professional application and practical administration of diverse banking systems, especially within the Mainframe environment based on z/OS.
- You will be incorporated into the Incident Management department, thereby ensure the failsafe operations and support the relevant Backup and Recovery Methods.

Your Profil:

- You have completed one of the following degrees: Computer Science, Business Informatics, Economics with IT-major, Mathematics, Physics or Engineering Disciplines (university or technical college) or have equivalent professional experience, for example, as an IT specialist with an excellent examination degree.
- You have extensive experience and very good knowledge in applied Computer Science.
- You distinguish yourself by your analytical skills, your mental flexibility and your problem solving ability.
- You have an independent and methodical work style and a high level of initiative.
- By using your hands-on approach and technical enthusiasm you solve problems within the given time.
- You are team-oriented and likely convey your knowledge and experience with your team.
- You know how to perform competently and conveniently towards customers.

If we have sparked your interest, we are looking forward to receiving your application documents to jobs@talentschmiede.com.

Please do not forget to tell us your salary expectations and the possible date of entry. For further information, please do not hesitate to contact us (+49 69 970 979 58) or visit our website <http://career.talentschmiede.com/>
